Hoping to rebut the charges about him made in a rival's autobiography Barney feels compelled to pen his account of events. From his bohemian misadventures during the 1950s in Paris to the fortune he amassed through his trashy TV company Totally Unnecessary Productions and the three women he married, he quickly proves that his memory may be slipping, but his bile isn't. He skewers feminists, politicians, the bourgeoisie, fads, social movements, and most of all himself. And when it comes to being charged with the murder of his own best friend -- caught in bed with the second Mrs. Panofsky -- Barney's version is as contradictory and slippery as real life right up to its astonishing end.

A beast. Not quite wolf or bear, gorilla or dog but a horrible new creature who walks upright—a creature with fangs and claws and hair springing from every pore. I am a monster. You think I'm talking fairy tales? No way. The place is New York City. The time is now. It's no deformity, no disease. And I'll stay this way forever—ruined—unless I can break the spell. Yes, the spell, the one the witch in my English class cast on me. Why did she turn me into a beast who hides by day and prowls by night? I'll tell you. I'll tell you how I used to be Kyle Kingsbury, the guy you wished you were, with money, perfect looks, and the perfect life. And then, I'll tell you how I became perfectly . . . beastly.

Dr. Peter Brown is an intern at Manhattan's worst hospital, with a talent for medicine, a shift from hell, and a past he'd prefer to keep hidden. Whether it's a blocked circumflex artery or a plan to land a massive malpractice suit, he knows what evil lurks in the hearts of men. Pietro "Bearclaw" Brwnna is a hitman for the mob, with a genius for violence, a well-earned fear of sharks, and an overly close relationship with the Federal Witness Relocation Program. More likely to leave a trail of dead gangsters than a molecule of evidence, he's the last person you want to see in your hospital room. Nicholas LoBrutto, aka Eddy Squillante, is Dr. Brown's new patient, with three months to live and a very strange idea: that Peter Brown and Pietro Brwnna might-just might-be the same person. Now, with the mob, the government, and death itself descending on the hospital, Peter has to buy time and do whatever it takes to keep his patients, himself, and his last shot at redemption alive. To get through the next eight hours-and somehow beat the reaper.

The story of Boston fighter "Irish" Mickey Ward and how he was helped to the world lightweight championship by half-brother Dicky Eklund. Eklund once decked Sugar Ray Leonard and went the distance against the boxing legend before forfeiting his career to drugs and crime. He redeemed himself by training Ward through his Rocky-like run to the title. Wahlberg will play Ward, a fighter who was losing bouts and was ready to hang up the gloves when his brother came back into his life. Bale will play Eklund, whose drugs and robbery spree drew him a 10- to 15-year sentence in state prison. There, he kicked drugs, became a model prisoner and emerged as a changed man who helped his brother reach the glory that eluded him.

Juli Baker devoutly believes in three things: the sanctity of trees (especially her beloved sycamore), the wholesomeness of the eggs she collects from her backyard flock of chickens, and that someday she will kiss Bryce Loski. Ever since she saw Bryce's baby blues back in second grade, Juli has been smitten. Unfortunately, Bryce has never felt the same. Frankly, he thinks Juli Baker is a little weird--after all, what kind of freak raises chickens and sits in trees for fun? Then, in eighth grade, everything changes. Bryce begins to see that Juli's unusual interests and pride in her family are, well, kind of cool. And Juli starts to think that maybe Bryce's brilliant blue eyes are as empty as the rest of Bryce seems to be. After all, what kind of jerk doesn't care about other people's feelings about chickens and trees?

Based on the novel "From a Buick 8" written by Stephen King. The state police of Troop D in rural Pennsylvania have kept a secret in Shed B out back of the barracks ever since 1979, when Troopers Ennis Rafferty and Curtis Wilcox answered a call from a gas station just down the road and came back with an abandoned Buick Roadmaster. Curt Wilcox knew old cars, and he knew immediately that this one was...wrong, just wrong. A few hours later, when Rafferty vanished, Wilcox and his fellow troopers knew the car was worse than dangerous -- and that it would be better if John Q. Public never found out about it. Curt's avid curiosity taking the lead, they investigated as best they could, as much as they dared. Over the years the troop absorbed the mystery as part of the background to their work, the Buick 8 sitting out there like a still life painting that breathes -- inhaling a little bit of this world, exhaling a little bit of whatever world it came from.

A story that brings together classic monster characters, including Frankenstein's Monster, the Invisible Man, Dracula and the Hunchback of Notre Dame, in a contemporary film noir setting. The Monster, for example, has evolved, learned how to control his anger and now acts as a private investigator. Dracula, meanwhile, is a kingpin of crime, and the Invisible Man is a secret operative.

Juliet. She's one-half of the world's most famous couple, whose enduring legend draws millions of visitors to Verona every year. But that's only part of the story. Since the 1930s, Juliet has received an untold number of letters from writers all over the world. Most of the missives talk of love, of course—love found and love lost, love sought and love remembered. They may be written by teenagers in the throes of a first crush or struggling with parental censure. They may be from adults celebrating a hard-won love or wrestling with commitment. They come by the truckload, in almost every imaginable language—composed on ornate stationery, scrawled on loose-leaf, or scribbled on whatever scraps were handy. Frequently addressed simply, "Juliet, Verona," all of these letters reach their destination and, amazingly enough, all of them receive an answer.
